

The image shows four wooden blocks arranged in a staggered, slightly overlapping pattern. Each block is light-colored wood with a black, bold, sans-serif letter printed on it. The letters spell out the word 'RISK'. The 'R' is on the bottom-left, 'I' is above and to the right of it, 'S' is above and to the right of the 'I', and 'K' is on the top-right.

R I S K

Avoidance

Risk Avoidance

The cost of the risk involved is too high and must be avoided.

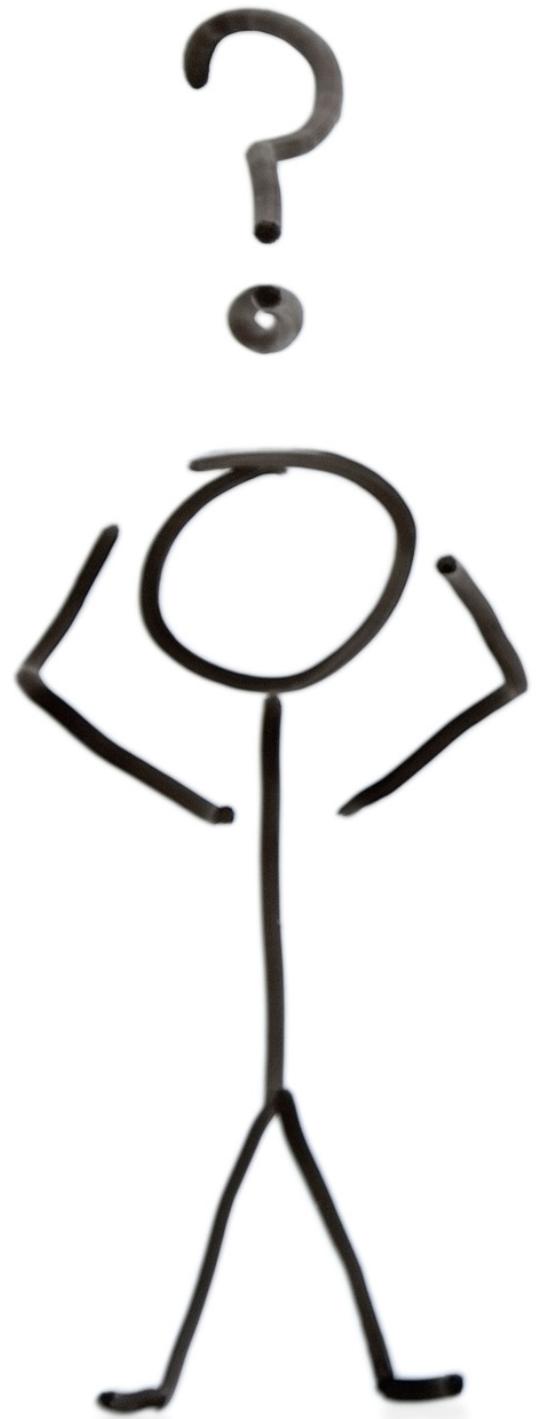

Risk Avoidance v Mitigation

Mitigation means the risk probabilities are reduced to the maximum while avoidance means the risk is eliminated completely

Risk Avoidance

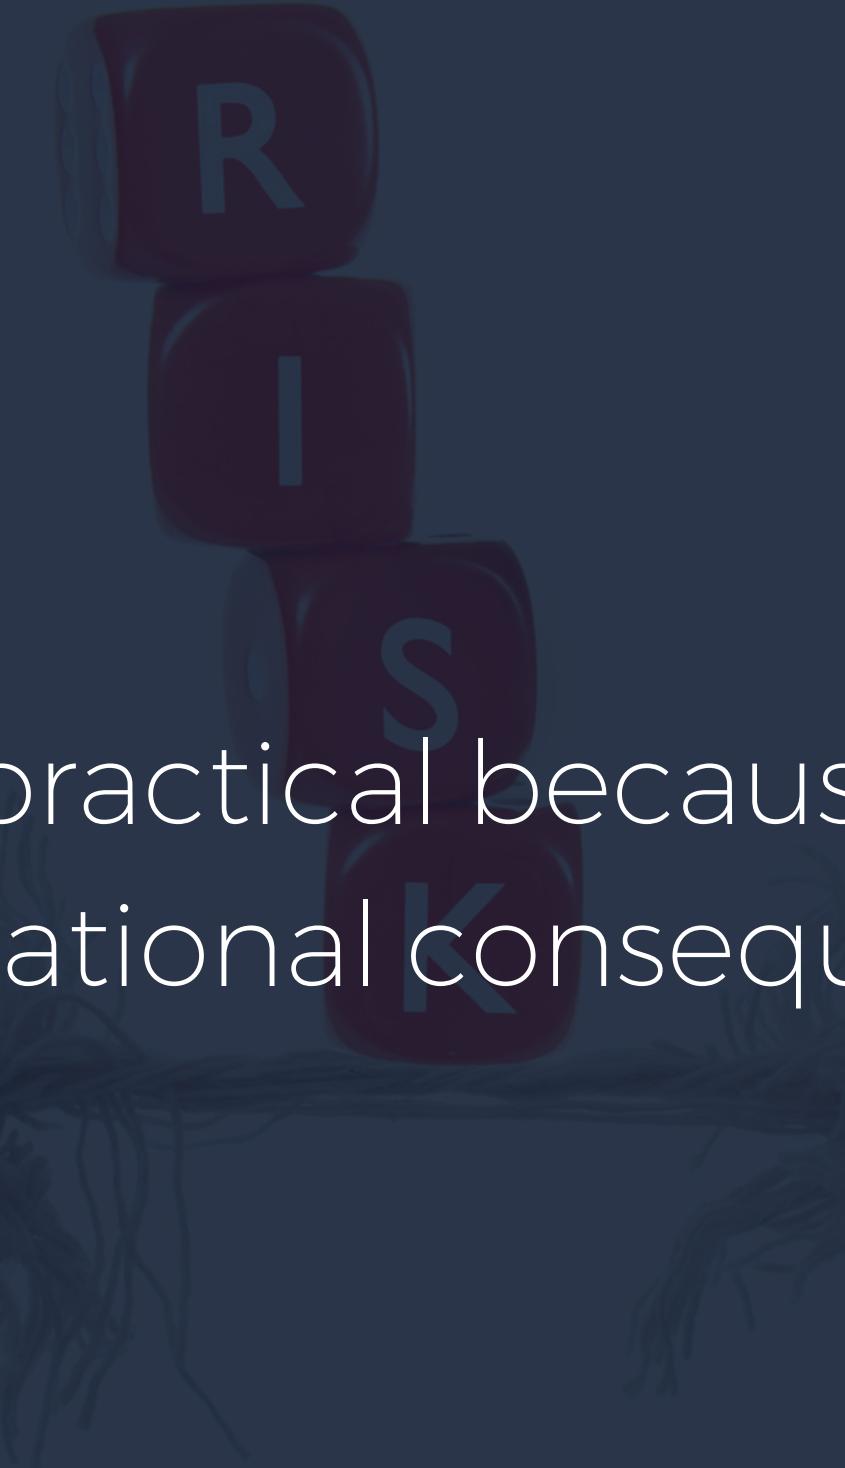

So why not eliminate all risks.

LAB CYBER

Risk Avoidance

Not always practical because of potential operational consequences

Risk Avoidance

Change operating system from windows 11 to Linux

Risk Avoidance

NO BYOD - Ban employees from using personal devices for work
